The pricec of a lour goods are marked in plain figures. Pon't buy shoes at other stores if not so marked unless you desire to pay two prices. TAYLOR & WILLIAMS. 157 Market street.

Township Committee Notes. -The proposed annexation of the Silver Lake District in the township of Belleville to the township of Bloomfield was Diamonds & Watches Committee meeting on Wednesday night. Messes. Edw. Heckel and Henry Decker of the Silver Lake Improvement Association, were present and displayed a map of the territory it is proposed to annex. According to statements made by Mr. Heckel, there appears to be a division of pinion as to the eastern boundary of the territory to be detached from Belleville. Soould it extend as far east as Second River it would include a number of residents and property owners who do not desire a change, among them the Messrs. Hendricks, of the copper works, Messrs. James and Ephraim Moore, and the Osborne family. To avoid a contest with these people and to facilitate the scheme of annexation, a compromise has been made and the Morris Canal designated as a boundary. The Second River is conceded to be indisputably the most advantageous line and the members of the committee urged upon Messrs. Heckel and Decker to try and prevail upon the people to adopt it. Mr. Oakes said the Second River line was adopted, whereas would be a disposition to oppose annexaalso take a deeper interest in assisting them to carry it through. Mr. Heckel intimated that the influence of the men in the locality between the canal and the Legal Business attended to river was very powerful, and to try to bring them into Bloomfield against their wishes would be sure to defeat the scheme. These same men had killed a similar movement five years ago. Messrs. Cook and Dodd also urged the river line in preference to the canal. Mr. Farrand admitted that the river line was his choice

decide what make to get until you have investigated the claims that are made for the Estey Piano. The patent repeating action used in these pianos makes them superior to all others, but besides this there are many other improvements that are not found in other makes. The immense business now being done in these pianos all over the world, and the surprising increase in the demand for them proves that there is something in their construction that is worthy of investigation. Write for catalogue, and mention this paper.
